Nancy, we've found that the people who control the About R3 and our six state pages are very responsive to adding, deleting and revising content. Of course, unless something is previously arranged--such as this one with Christine--or a minor something, the web content coordinator is generally consulted and makes the request. Tony, too, is usually involved and makes similar changes, as needed, on the R3 News+Events page (which IS in the R3 TSSMS).

Thanks for following through on Christine's request. She, by the way, sees all the requests that go to the group email box that Tony mentioned. Larry

Nancy:

We do not control any of the "aboutepa:" pages here at Region 3. Only HQ can make any updates. At the very bottom of the page, you will find a link to contact the EPA Web Editor. You can request the changes through that link.

Subject: Changes needed to EPA in PA page

Hi Tony,

I think you are the correct person for this. This is for the EPA in Pennsylvania page (<http://www.epa.gov/aboutepa/states/pa.html>).

Christine Dibble had noticed a while back that some of the Dimock pdfs were not 508 compliant, so I worked on them and sent them to Edison, NJ for uploading. The result is that some changes need to be made in the links.

Would you change the url for this document to: [http://www.epaosc.org/sites/7555/files/dimock-action-memo-01-19-12\[1\].pdf](http://www.epaosc.org/sites/7555/files/dimock-action-memo-01-19-12[1].pdf) which is its new name? (No, not my name of choice. They got rid of the spaces but put in brackets.)

January 19, 2012 Action Memo (PDF)

<http://www.epaosc.org/sites/7555/files/Dimock%20Action%20Memo%2001-19-12.PDF>

For this pdf, please change the size to 11.3MB. The file name should remain the same. The old file is up currently but the

new one should be up soon.

Validated data summary report for 61 Dimock households that were sampled (PDF)
<http://www.epaossc.org/sites/7555/files/Dimock%20W1,2,3,4,5%20Compulation%20Report%202.pdf>

End of story is that most of the files about Dimock from Edison are noncompliant, but that's out of our hands.

Thanks.
